

Happiness

A/A/D/D/E/D/A/A

**Happiness is not just a word
It's a sword against the power**

With happiness you can not destroy
But you can enjoy the day
With happiness you can not kill
But you can be chilled and thrilled
With happiness you can not hate
Just wait for your love
With happiness you got no chance
So dance dance dance

**Happiness is not just a word
It's a sword against the power**

With happiness you can stop every war
Smiling against all the guns
With happiness you can stop every hunger
Cause there's no need for much more
With happiness you can fight all the power
Cause they got no chance against
With happiness you got no chance
So dance dance dance

**Happiness is not just a word
It's a sword against the power**
