

Keep your head up high

E

I'm talking and talking - can't find the curtain
Listen to the songs - you're playing for me
One strange day after - I realize
that you wanna tell me - what's deep inside

Keep your head up high - No need to cry

E

Afraid of the pain - you're seeing in me
I'm running away - can't stand these thoughts
Alone with my fears - your words in my head
All is wide open - the sun is my friend
