

Only nature can judge me bpm=130 Dm/Am

Only nature can judge me - only nature makes me free
Only nature is my teacher my university

In the babylon system you can already see
people are running as blind as they can be
away of the life - Jah nature of themselves
divided of the system - feeling often like a clown but

Only nature can judge me - only nature makes me free
Only nature is my teacher my university

You are thinking bout the life love and Jah
now the sun is coming - the war more than far
You re seeing those people which have not found
helping them to survive - stand up of the ground

Only nature can judge me - only nature makes me free
Only nature is my teacher my university
