

In a Reggeatown

D/C

In a Reggeatown without rudeboys

In a Reggeatown where no one destroys

In a Reggeatown filled with love and peace

They're we dancing filled with higher energies

No need for bullets - no need for guns

No one filled with pain - No need to run

No need for hunger - no need for war

No need for sorrow - just love and peace anymore

No need for politicians - no need for police

No need for warlords - no need for brutal regimes

No need for power - no need to cry

A good place for living - a good place to die
